PROFILE

- Software Developer at ModulesGarden between 2021-2024, specializing in WHMCS, I've honed my skills in software development and problem-solving.
- Laravel developer after hours.
- Passionate about creating innovative solutions and delivering high-quality code that meets client needs. Love to learn new technologies and solutions.

EMPLOYMENT HISTORY

Software Developer, ModulesGarden

Rzeszów

May 2021 — Jun 2024

- I was responsible for writing and maintaining code, specifically Addon Modules for WHMCS. I also worked on fixing clients' bugs and ensuring that our products were always functioning at their best.

Software Developer, Jomafive

Opole

Jan 2021 — May 2021

During my time working as a programmer for Jomafive, I was tasked with developing a web application focused on creating events and tournaments specifically for kids playing soccer.

EDUCATION

High School nr 1

Opole

Sep 2011 — May 2014

High school was a transformative experience for me, where the studies were focused on history, literature and knowledge about society.
